

2018 State of Hospital Medicine Report

2018 Report Based on 2017 Data

Section Four

Hospital Medicine
Children Only

Table 4.2 | Hospitalist Co-Management Roles in Surgical and Medical Sub-Specialties (continued)

	Grps	Children Only		Academic Status	
		Yes	No	Yes	No
Orthopedics	Admitting/Attending	22	17	9	
	Consultant	21.5%	23.5%	22.2%	
	Variable	46.5%	52.9%	55.6%	
	No Interaction	28.1%	17.6%	22.2%	
Early-Term Pregnant Patients	Grps	3.1%	3.8%	0.0%	
	Admitting/Attending	30	16	6	
	Consultant	26.0%	31.3%	12.5%	
	Variable	3.3%	6.3%	0.0%	
	No Interaction	19.0%	6.3%	22.0%	
General Surgery	Grps	66.7%	56.3%	62.5%	
	Admitting/Attending	25	16	10	
	Consultant	17.1%	11.1%	40.0%	
	Variable	31.4%	22.2%	40.0%	
	No Interaction	42.9%	52.4%	20.0%	
Cardiovascular Surgery	Grps	8.4%	11.1%	0.0%	
	Admitting/Attending	28	14	8	
	Consultant	19.7%	7.1%	21.0%	
	Variable	17.4%	14.3%	12.0%	
	No Interaction	7.1%	14.3%	0.0%	
Other Surgical Sub-Specialties	Grps	54.7%	64.3%	63.3%	
	Admitting/Attending	32	18	8	
	Consultant	19.4%	16.7%	25.0%	
	Variable	11.3%	33.3%	25.0%	
	No Interaction	10.0%	50.0%	50.0%	
		5.1%	0.0%	0.0%	

*Analyses present the proportion of assigned role within each surgical and medical sub-specialty (i.e., percentages should add up to 100 for each listed sub-specialty).

Key Findings for 4.2

- The most common sub-specialties where hospitalists served an admitting/attending role were palliative care (95.5%) and neurology/stroke (86.7%).
- The most common sub-specialties where hospitalists served a consultant role were neurosurgery (45.9%) and orthopedics (46.9%).
- The most common sub-specialties where hospitalists served "variable roles" were other surgical specialties (50.0%) and general surgery (45.9%).
- The sub-specialties that hospitalists were most likely NOT to interact with were critical care (55.2%), oncology (75.6%), early term pregnant patients (66.7%) and cardiovascular surgery (64.3%).

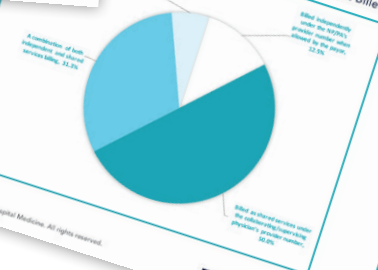

Table 4.4 | Presence of and Billing for Nurse Practitioners/Physician Assistants

	Grps	Are NP/PAs Present?		How Nurse Practitioner/Physician Assistant Work is Billed			
		Yes	No	Grps	Billed as Shared Services Under the Collaborating Physician's Provider Number	A Combination of Both Shared Services and Independent Services Billing	NP/PAs Don't Generally Provide Billable Services or Are Submitted to Payors for Their Services
Children Only	Yes	36	41.7%	14.3%	16	50.0%	21.0%
	No	19	42.1%	57.0%	11.1%	33.3%	64.4%
All	Yes	10	40.0%	60.0%	4	0.0%	75.0%
	No	10	40.0%	60.0%	4	0.0%	25.0%

Key Findings for 4.4

- In the 2016 SoHM Report, NP/PAs were reported in more HMCs that served children only.
